PANEL CONSTRUCTION

The front and back skins are locked together in a tongue-and-groove design for years of worry-free protection. CFC⁵ free polystyrene insulation is secured in place with a urethane adhesive to increase structural integrity.

Footnotes

1. Extra heavy paint system consists of .25 mil. primer with rust inhibitor and a .75 mil. coating of baked-on polyester paint. 2. All designer lights are either transparent or semi-transparent. For all available window options, please see our Glass Option Brochure. 3. Refer to samples at your local garage door professional for exact color match. 4. Chlorofluorocarbon (CFC) free. 5. R-value testing is in accordance with ASTM C518 standards.

All information presented is based on the specifications and features available at the time of printing and is subject to change without notice.
